PREFACE

The development of the offshore petroleum industry is a remarkable story of inventiveness, entrepreneurship, hard work, and risk-taking that turned Louisiana's relatively isolated coastal communities into significant contributors to the U.S. and global economies. This industry emerged as local residents and returning World War II veterans applied skills, technologies, and can-do attitudes to overcome the many challenges of producing oil from below the ocean floor. Offshore workers initially came from Texas, Oklahoma, and Louisiana, but soon people from throughout the United States were attracted to the Gulf Coast. This industry, born in the Louisiana marshes, has grown to have a key place in the modern world. Yet, it is little known, understood, or documented, and its dynamic economic role is virtually invisible.

To explore the history and evolution of this industry and the people and communities where it was born, in 2001 the U.S. Minerals Management Service (MMS) sponsored a study to examine the historical evolution of the offshore oil and gas industry and its effects on Louisiana's coastal culture, economy, landscape, and society. The study represented the convergence of the ideas of several people who recognized that an important piece of history – the origins of the offshore petroleum industry – was being lost and that capturing it would require the use of published works, periodicals and other documents, and oral histories. The idea for the study was supported by the Social Science Subcommittee of the MMS Scientific Committee, staff from MMS Headquarters and the Gulf of Mexico Region office in New Orleans, members of the business and academic communities, and Louisiana civic leaders and educators. As a result, researchers from universities in Louisiana, Texas, and Arizona came together to trace the development of the industry from land and marsh to state waters and then out across the Outer Continental Shelf.

Research of the MMS Environmental Studies Program provides information and analysis in support of MMS decision-making and assessment. From the beginning, a principal aim of the history study was to establish a collection of audio recordings of interviews with workers, company owners, family members, community leaders, and others whose lives were shaped by the offshore oil and gas industry in southern Louisiana. The focus of the study was on the earliest days, especially the period from the 1930's to the 1970's. Interviewees talked about how this industry grew from its fledgling beginning in the coastal wetlands and inner bays in the 1930's through the frenzied activity of the 1970's and beyond. The interviews ranged from very general conversations about life in southern Louisiana during this period to very specific discussions of particular aspects of the oil and gas industry.

The study began with a team of researchers from the Center for Energy Studies at Louisiana State University (LSU), the Departments of History and Business at the University of Houston (UH), the Program in Public History Studies at the University of Louisiana at Lafayette (ULL), and the Bureau of Applied Research in Anthropology at the University of Arizona (UA). The LSU team was led by Dr. Allan Pulsipher and included Ric Pincomb and Dr. Don Davis. Drs. Tyler Priest and Joseph Pratt led the UH team and were assisted by Jamie Christy, Joseph Stromberg, and Tom Lassiter. Suzanne Mascola transcribed the UH interviews. At ULL, Dr. Robert Carriker was assisted by Steven Wiltz and David DiTucci.

Drs. Diane Austin and Thomas McGuire of the UA were assisted by many people. Ari Arand, Emily Bernier, Andrew Gardner, Rylan Higgins, Scott Kennedy, Christina Leza, Lauren Penney, Jessica Piekelek, Dr. James Sell, and Joanna Stone conducted interviews and helped summarize and transcribe them. Kevin Bulletts, Jacqueline Dorfman, Justin Gaines, Mary Good, Kris Larson, Karen Morrison, Stephanie Pagac, Megan Prescott, Sherri Raskin, Jeremy Slack, and Maisa Taha helped transcribe and edit interviews and manage the project office, website, and multimedia products. UA researchers were supported by community assistants in Houma, Raceland, and New Iberia: Lois Boutte, Charlene Broussard, Norma Cormier, Nicole Crosby, Carolyn Cummings, Robyn Hargrave, and Debbie Toups. They received tremendous support from local organizations and individuals, especially the Barataria-Terrebonne National Estuary Program, Bayou Native Bed and Breakfast, C.J. Christ, the Desk and Derrick Clubs of Morgan City and New Orleans, the Louisiana Technical College Young Memorial Campus, the Morgan City Archives, the Morgan City Daily Review, the Nicholls State University Archives, Steve and Jean Shirley, and the United Houma Nation.

Over 450 interviews were recorded during this study. The tapes and discs onto which the interviews were recorded and the transcripts of the interviews are available in the archives of the University of Houston, Louisiana State University, University of Louisiana at Lafayette, and Nicholls State University. Each interview provides a unique look at the offshore oil and gas industry and its impacts on workers, their families, and their communities.

In addition to the recorded interviews, six volumes were produced during this project. The first, *Volume 1: Papers of the Evolving Offshore Industry*, is a collection of analytical papers, each of which deals with an important aspect of the evolution of the offshore oil and gas industry. That volume is followed by three more, *Volume 2: Bayou Lafourche – Oral Histories of the Oil and Gas Industry*; *Volume 3: Morgan City's History in the Era of Oil and Gas – Perspectives of Those Who Were There*, and *Volume 4: Terrebonne Parish*, all of which examine the offshore oil and gas industry through the lens of a particular community or region of southern Louisiana. *Volume 5: Guide to the Interviews* summarizes information about the interviews, including how each interviewee became involved in the study, his or her family and/or occupational history, and particular highlights of the interview. The final volume, *Volume 6: A Collection of Photographs*, is a compilation of photographs, diagrams, and other visual images that were collected from interviewees during the study.

ACKNOWLEDGMENTS

This volume would not be possible without the cooperation and assistance of many people. While interviewing southern Louisiana residents about their experiences in the offshore oil and gas industry, Andrew Gardner, a researcher with the Bureau of Applied Research in Anthropology at the University of Arizona (UA), began to encounter people with photographs of the events, equipment, and people they were describing in their interviews. Recognizing that allowing people to bring out photos and talk about them during a regular recorded interview would result in something that would later be unintelligible to a listener, Andrew conferred with the rest of the UA team and developed a specialized “photo interview” that was designed to allow the interviewee to share photographs and tell stories associated with them.

Between 2001 and 2005, Andrew, Emily Bernier, and Diane Austin refined the photo interview format and collected thousands of digital images of oilfield workers, equipment, and communities. During 2003 and 2004, several other members of the UA and University of Houston research teams, notably James Sell, Jessica Piekelek, and Jamie Christy, also conducted photo interviews. In the end, 53 study participants shared their photos and stories with us. It is to those individuals, whose names appear throughout the volume on the pages with their photos, that we owe our sincerest thanks.

1. INTRODUCTION

From 2001-2005 the U.S. Minerals Management Service sponsored a study to examine the historical evolution of the offshore oil and gas industry and its effects on Louisiana's coastal culture, economy, landscape, and society. Researchers from universities in Louisiana, Texas, and Arizona came together to trace the development from land and marsh to state waters and across the Outer Continental Shelf. As one component of this project, university and community researchers gathered oral histories from workers, family members, community leaders, and others whose lives were shaped by the offshore oil and gas industry in southern Louisiana. Local entrepreneurs, workers, family members, and industry and community leaders talked about how this industry grew and developed.

Whenever possible, the interviews were recorded on tape or compact disc (CD) and archived. Photographs, diagrams, and other materials were gathered as well. The photographs were scanned and a digital copy placed in the project archive; the originals were returned to the owners. Whenever possible, a copy of the recorded interview was returned to the interviewee. Interviewees granted researchers permission to place their interviews and digital copies of their photographs in the public domain (see Chapter 4 for Gift of Personal Photographs Release Form). These materials are available for unrestricted scholarly, educational and public use. Persons using these materials should credit the donor and the Offshore Oil and Gas History Project (OOGHP). For example, "Interview with John Rogers, OOGHP, 2001" or "Photograph from John Rogers, OOGHP, 2001."

This guide to the photographs was created to organize the photographs and provide users access to them. A companion volume presents the interviews that were conducted during this project (see *History of the Offshore Oil and Gas Industry and its Effects on Louisiana, Volume 6: A Guide to the Interviews*). That volume also provides information about how to access the database of interview summaries and transcripts of the interviews.

1.1. Organization of Materials

Interviews and photographs archived during the Offshore Oil and Gas History Project were catalogued and organized in electronic databases. Each interview was given a unique number and a separate entry. Each photograph was stored in a separate file in jpg format. The accompanying compact discs contain electronic copies of all photographs in the collection and of the signed release forms. Thumbnails of all photos are presented in this volume in Chapter 2, as described below.

A list of all photographs collected during the Project is provided in Chapter 3. The list includes the name of the file containing a digital image of the photo, a description of the photo, the date of the photo (if available), the name of the donor, date of interviews conducted with that person, and the interview number(s). The list of photographs is available electronically on the first compact disc of the set and can be readily searched.

1.2. The Photographs

Each photograph provides a unique look at the offshore oil and gas industry and its impacts on workers, their families, and their communities. The photographs are organized by donor; the donors are organized alphabetically by last name. Thumbnails of the images are grouped together in numerical order. Researchers interviewed the donors about their photographs and recorded information about each photo. A brief description of each photo is included in the list of photographs in Chapter 3. In most cases during the interview, additional information was provided as context for the photo. Many of the photo interviews were recorded on audio tape or disc as well as in written notes.

The tapes and discs onto which all interviews associated with this project were recorded and paper copies of the transcripts of those interviews are available in the archives of the Louisiana State University, University of Houston, University of Louisiana at Lafayette, and Nicholls State University. Copies of these materials can be obtained by contacting the archivists of these institutions.

McCully, J02	The changeover from company-owned contract rigs meant a labor reorganization, Jack and crew after this rig was shut down.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J03	Rig 18, 1957 on Lake Des Allemandes.	1957	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J04	Rig 30, the boilers to the left, the doghouse to the right.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J05	Jack working in Texas on rig 30, a steam driven rig in 1955. Drilling next to Raymond Person's estate, a Ford dealer in Houston.	1955	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J06	Rig 30, with a wider view of the boilers and the doghouse, both set away from the Rig.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J07	The crew on Rig 30.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J08	Shift change, top to bottom, Woody Sampson, Bob J Bush, Harold Saunders, Jackson, Red Eye Regan.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J09	Jack standing in front of a Humble helicopter offshore on rig 45. The helicopter later flipped in a bad accident.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J10	In Crowley, LA, this derrick caught fire and fell down, killing the derrickman. The kelly is the only thing standing on the platform.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J11	View of the A platform with round water tank, compressor and a stiff leg crane. The rig has since been removed from the Gulf.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J12	A rig fire in Erath 1959-60. The derrick had fallen in the mud pit, and one boiler was burned, the other three dragged clear.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J13	The same fire showing the rig floor burned and fell over the derrick; using Caterpillars to drag pipe and boilers out of the heat.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J14	After the fire burned for two months, they drilled to the bore and pumped mud into it to kill it.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J15	They wore fire suits go in and tie onto the boilers to drag them out of the heat, with the derrick behind them.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J16	A view of the gas coming straight out of the drill pipe, blowing out around the blowout preventers.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
McCully, J17	A view of the derrick collapsed in the foreground with the drill pipe blowing gas behind it.	1959-60	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J18	Rig 20, a barge rig, with the big travelling block pulling pipe out of the ground.	1958-59	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J19	Walkway from the quarters to the rig. The gas goes through three compression cylinders to cool the gas down.	1973	McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J20	Rig with high waves		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J21	Shell rig that burned for two to three months at Fourchon. The surrounding rigs are directional drilling to kill the burning well.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J22	A view of the same rig burning at night, with the oil slick visible in the foreground.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J23	Jack used to fish off the rig after work, shown with a fellow employee, Emmett Robinson.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
McCully, J24	Rig 30, in Texas, blew up sending the boiler into this car, owned by the driller, Ben Hebert. No-one was hurt in the explosion.		McCully, Jack 1-18-02, 1-19-02	AG056, EB025p
Michel, D01	Ad for Theriot Tugs. When they were transporting Cajun technology from the Gulf of Mexico to the North Sea; one of the tugs that was towing barge Drew Michel was on		Michel, Drew 7-26-02	DA056
Michel, D02	On derrick barge, working for Ocean Systems; world record dive of 636 feet off moveable offshore barge; Art Pagett and Glen Taylor made the dive	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D03	Art Pagett (l) and Glen Taylor	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D04	PDC Enterprises control shack set up on barge for the deep dive; (l to r) video recorder, video monitor, spare parts and wire	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D05	PDC Enterprises video recorders in control shack on barge for deep dive	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D06	PDC Enterprises video gear on barge for deep dive	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D07	Art Pagett (l) , Joe McGinnis (center), Glen Taylor on deep dive; Art's and Glen's heads are shaved for electrodes	summer 1967	Michel, Drew 7-26-02	DA056

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
Michel, D08	Drew Michel rigging TV camera on pan and tilt unit to document deep dive	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D09	Swedish professor and his three female students; lived in house behind them to keep them away from the divers; put ekg probes on divers' heads	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D10	James Smith (Smitty) taking 16mm movies from the boom of the crane	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D11	vessel used for deep dive	summer 1967	Michel, Drew 7-26-02	DA056
Michel, D12	The Cargill Salt Mine - used divers to recover bodies after fire, men died of CO asphyxiation; (l to r back row) Bob Kutzleb (general manager of Ocean Systems, Inc.), Dale Fackler (diver), Drew Michel (electronics), Don Terry (diver), Glen Taylor (diver; sitting on right); (l to r front row) ?, ?, Art Pagett	early 1968	Michel, Drew 7-26-02	DA056
Michel, D13	Pipeline had been laid in the North Sea, still had no product in it; German supply boat dropped anchor and crushed it; Taylor Diving sent over in winter to repair; ran vertical pipe off side of barge, dropped steam hose to heat water for divers to pass to and from underwater welding habitat; divers would do decompression stops in pipe in warm water	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D14	Pipe used on job (see photo 13); markings on pipe indicate water depths	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D15	George Morrissey (l, back to camera), Drew Michel in North Sea on repair job; entire senior management of Taylor Diving went on job	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D16	Getting ready for repair job in the North Sea	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D17	Just a moment of misery; Drew Michel on deck of barge in North Sea in winter	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D18	Taylor Diving in North Sea; had to put sandbags around pipe; used another pipe to drop sandbags down to divers	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D19	Pipe on back of barge; four rollers around the pipe allowed barge to roll up and down around it; divers would enter through the hole, crawl through the pipe, and exit through a hole at the bottom	12/1/68	Michel, Drew 7-26-02	DA056
Michel, D20	Hugh Gordon, a Brown and Root pipe lay barge; at work in the North Sea laying pipeline when accident occurred (see #13)	12/1/68	Michel, Drew 7-26-02	DA056

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)

MillerLy28	Valves for pumping from tank to tank	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy29	Engine room of Indian Seal, generator	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy30	Engine room of Indian Seal; looking back toward main engines	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy31	Engine room of Indian Seal; piping and gear box	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy32	Engine room of Indian Seal, pump to move liquids	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy33	Main engine of Indian Seal	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy34	Tool area in engine room of Indian Seal; shaft coming down in foreground	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy35	Engine room of Indian Seal, taking out broken turbo charger	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy36	Mess left by mechanics repairing turbo charger in engine room of Indian Seal	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy37	Mess left by mechanics repairing turbo charger in engine room of Indian Seal	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy38	Mess left by mechanics repairing turbo charger in engine room of Indian Seal	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy39	Indian Seal in drydock	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy40	Greenland; freighter out near iceberg	Summer 1975	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy41	Sunset over the Gulf of Mexico	1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy42	Mr. Gus II in the Gulf of Mexico; standby boat getting towed	1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy43	Worker being lowered to satellite jacket from crane on platform; taken from Pacific Seal; the boat was working in this field because the standby boat broke down going out to service the jacket	1973	Miller, Lynda 6-28-06, 6-29-06	DA141

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
MillerLy44	Worker being lowered to satellite jacket from crane on platform; taken from Pacific Seal; the boat was working in this field because the standby boat broke down going out to service the jacket	1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy45	Kitty that deckhound found snuggled up to dog in galley of Pacific Seal	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy46	Kitty and dog in galley of Pacific Seal; deckhand's jacket on chair to get kitty's attention; renamed extra stateroom the "Cat House"	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy47	Kitty eating fish caught by deckhand on the Pacific Seal	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy48	Mr. Gus II in the Gulf of Mexico	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy49	Trying to tie up to Mr. Gus; backing up; crane operator will lower line; deckhand will catch the port line first and then captain will swing the boat around for the starboard line	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy50	Trying to tie up to Mr. Gus; backing up; crane operator has lowered line and personnel basket	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy51	Pacific Seal backed up to Mr. Gus, roustabout from the rig on the boat deck	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy52	Offloading supplies from the Pacific Seal workboat; couldn't tie up because of rough water, sitting with engines holding the boat at its station; could not drop anchor because of too many pipelines	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy53	Water rushing over the deck of the Pacific Seal; pipeline racks on the side	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy54	Water rushing over the deck of the Pacific Seal; pipeline racks on the side	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy55	Pacific Seal deck; old external tanks for pumping mud; company man in red suit; hose is pumping water; blue tanks in background are mud tanks	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy56	Roustabout on Pacific Seal keeping watch while pumping water	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy57	Deck of Pacific Seal while pumping water; blue external mud tanks in back	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy58	Guys fishing from deck of Pacific Seal; one with hardhat is roughneck from the rig	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy59	One of the ropes tying off the Pacific Seal	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy60	Diver in the water off the Pacific Seal inspecting leg of Mr. Gus	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
MillerLy61	Leg of Mr. Gus	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy62	Roustabout on Pacific Seal sent down from rig to help	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy63	Two guys on deck of the Pacific Seal	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy64	Pacific Seal backed up too close to the Mr. Gus	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy65	Roustabouts from the rig on the boat deck	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy66	Diver going in the water from the Pacific Seal to check out the leg of the Mr. Gus	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy67	Diver going in the water from the Pacific Seal	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy68	Diver coming out of the water, tender helping	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy69	Diver coming out of the water, tender and other person helping	Fall 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy70	Marlin rig with Laterno legs; diver in water on rope	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy71	Marlin rig with Laterno legs; diver in water on rope	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy72	Diver coming out of water at Marlin rig	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy73	Diver being pulled up with crane	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy74	Diver being pulled up with crane	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy75	Baxter IV off Texas coast	Mar. 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy76	Pacific Seal serving as platform for Subsea International Divers, tied to Shell platform off Mississippi River	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy77	Diving bell going in	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy78	Diving bell coming up	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy79	Diving bell coming up	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy80	Diving bell being brought on board Pacific Seal	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy81	Diving bell being brought on board Pacific Seal	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
MillerLy82	Diving bell being locked onto sat chamber on Pacific Seal	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy83	Diving bell being locked onto sat chamber on Pacific Seal; gangway to platform	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy84	Hooking diving bell up to sat chamber	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy85	Pacific Seal outfitted for work with Subsea Internation on Shell platform; drill pipe on boat	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy86	Diving bell with chamber, ramp, platform in back	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy87	Stern of Pacific Seal as seen from platform; pipe, diving bell, chamber, oxygen and helium tanks	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy88	Back of Pacific Seal pulled up to platform; pipe on deck;ladder shallow water divers used to get on and off;	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy89	Back of Pacific Seal, ladder shallow water divers used to get on and off; diver going in	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy90	Looking straight down at what's happening on the platform; pipes, men standing on second level of platform getting anodes ready to be put on legs	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy91	Men on deck getting anodes and pipes ready	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy92	Lowering something down platform leg, sending it down to the divers	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy93	Lowering something down platform leg, sending it down to the divers	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy94	From above boat looking straight down	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy95	From above boat looking straight down	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy96	From platform, view of entire boat	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy97	From platform, view of entire boat looking from stern forward	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141

Name	Photo Description	Photo Date	File Name(s) of Interview(s)	Interview Number(s)
MillerLy98	View of Pacific Seal from above	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy99	View of front of Pacific Seal	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy100	View of Pacific Seal from back of boat	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141
MillerLy101	Eye level view of Pacific Seal with anchors extending out from bow	Summer 1973	Miller, Lynda 6-28-06, 6-29-06	DA141

4. GIFT OF PHOTOGRAPHS RELEASE FORM

Gift of Photographs

**For the Project *History of the Offshore Oil and Gas Industry and its Effects on Louisiana*
(Hereafter the *History Project*)**

The History project has received from:

Donor's name: _____

Address: _____

digital copies of a set of _____ photographs on _____. I do hereby give the History Project the rights to place these photographs in archive, and to open the digital copies to unrestricted scholarly, educational and public use. Legal title of these digital copies is hereby transferred to the University of Louisiana Lafayette, Louisiana State University, Nicholls State University, the University of Houston, or some combination thereof.

(signature of donor)

(date)

Interviewer: _____

Place of Interview: _____

The Department of the Interior Mission

As the Nation's principal conservation agency, the Department of the Interior has responsibility for most of our nationally owned public lands and natural resources. This includes fostering sound use of our land and water resources; protecting our fish, wildlife, and biological diversity; preserving the environmental and cultural values of our national parks and historical places; and providing for the enjoyment of life through outdoor recreation. The Department assesses our energy and mineral resources and works to ensure that their development is in the best interests of all our people by encouraging stewardship and citizen participation in their care. The Department also has a major responsibility for American Indian reservation communities and for people who live in island territories under U.S. administration.

The Minerals Management Service Mission

As a bureau of the Department of the Interior, the Minerals Management Service's (MMS) primary responsibilities are to manage the mineral resources located on the Nation's Outer Continental Shelf (OCS), collect revenue from the Federal OCS and onshore Federal and Indian lands, and distribute those revenues.

Moreover, in working to meet its responsibilities, the **Offshore Minerals Management Program** administers the OCS competitive leasing program and oversees the safe and environmentally sound exploration and production of our Nation's offshore natural gas, oil and other mineral resources. The MMS **Minerals Revenue Management** meets its responsibilities by ensuring the efficient, timely and accurate collection and disbursement of revenue from mineral leasing and production due to Indian tribes and allottees, States and the U.S. Treasury.

The MMS strives to fulfill its responsibilities through the general guiding principles of: (1) being responsive to the public's concerns and interests by maintaining a dialogue with all potentially affected parties and (2) carrying out its programs with an emphasis on working to enhance the quality of life for all Americans by lending MMS assistance and expertise to economic development and environmental protection.
